How have your business sales been doing this year? Do you feel there is room for improvement but not enough hours in the day to work on running your business AND being everything else your business needs you to be in order to keep it running? Arkansas Office Products can help you with that! Our marketing department has created a list of questions that (if answered accurately) can help to focus your marketing and advertising on the product or service that is best for your business to be known for doing!

Creating an advertising campaign takes thought. It isn't easy, but fortunately, our team here at Arkansas Office Products can make it easier! We have a series of questions we will ask to help you identify the strengths you want to promote. In what generally takes less than an hour, we can help you identify what you want to promote and how - with this service we can help you build memorable marketing tools that will endear your business to your audience for years to come!

Post Card Printing Options:

- #1) We print just the cards then bring them to you for you to address and mail.
- #2) You provide the addresses, and we print the cards, with the addresses then all you do is mail.
- #3) You provide the addresses, and we print the cards, and print the addresses, then mail them for you, so all you have to do is place the order and give us your customers addresses, then relax knowing we will take care of your direct mail marketing for you so you can stay focused on running your business!

Reaching out to have direct contact with your customers away from your standard business interactions is more important than ever! Having contact with them outside of your normal business interactions shows them that they are important to your business and you want them to feel confident that you will be there to take care of them throughout the year.

Most people seem to associate marketing with magic and do not even pretend to have the first idea of where to begin. Arkansas Office Products has reduced the process to an easy to follow set of questions, then they will help you design a marketing program that is right for your business.

Let us get started helping you build your marketing program today!
